

2nd PICH Institute

Did it work? Evaluating pain-relieving interventions (Toronto, 2003)

Monday May 19th, 2003

6:30pm - Dinner

8:00 pm - Ken Craig & PICH Faculty (Conversation hour: Getting reacquainted, Mentoring)

Tuesday May 20th, 2003

8:30 - Pat McGrath (Can we make behavioral trials rigorous? The CONSORT statement and good clinical practice)

9:45 am - Mitchell Max (Cutting edge issues in analgesic clinical trials, Cadillac Fairview Lectureship in Pain Management)

11:00am - Diane Doran (The phenomena and methods of health services research: Implications for pain management in children)

12:00pm - Lunch

1:00pm - Arne Ohlsson (Systematic reviews: Implications for neonatal pain research)

2:15pm - Ken Craig (How to get the most from your mentor)

3:30pm - Mitchell Max & PICH Faculty (Grant writing)

4:45pm - Carl von Baeyer (Group task - Multidisciplinary groups of trainees assigned to work on a research design problem)

6:00pm - Dinner

7:00pm - Celeste Johnson, Anita Unruh & PICH Faculty (What other disciplines know: Hard science disciplines for softies and vice versa)

Wednesday May 21st, 2003

8:30am - Mike Salter (Molecular mechanisms of pain: Why should clinicians care?)

9:45am - Jonathan Dostrovsky (Plasticity in the somatosensory system: Animal models and human studies)

11:00am - Bonnie Stevens (Breaking down the barriers between research and practice: Tell me the ways)

12:00pm Lunch

1:00pm - Allen Finley (Internet and computer-based sources of knowledge on pediatric pain: Informal discourse, archived discussions, and interacting with distant research groups)

2:15pm - Anna Taddio (Issues in pediatric clinical pharmacology)

3:15pm - Group work - unstructured time

5:00pm - Teams 1-3 present and discuss their projects

6:00pm - Dinner

7:00 Teams 4-7 present and discuss their projects

8:45 Travel from Millcroft Inn to Metropolitan Hotel by bus
